Terms and Conditions for Partners

These terms govern your subscription at soulsystem.app and everything applicable between you and us. The subscription is available only for your business activity: you enter into it as a business customer, either as an individual under your own name or as a company (§ 2). You accept these terms by selecting a checkbox at checkout.

A. Contract

§ 1 Scope and contractual partner

(1) Your contractual partner is Divinebeingmetatron Ltd., Private Company Limited by Shares, Mesopotamias 8, 7041 Oroklini, Larnaka, Cyprus, registered with Registrar of Companies of the Republic of Cyprus under number HE 470351, VAT identification number CY60134085Z, represented by Director Gerome Raphael Seiffert. Telephone: +357 99 729287. Email: contact@soulsystem.app. These terms refer to us as "we".

(2) "You" means the individual or company entering into the subscription for its business activity. We also call you a partner.

(3) These terms apply to the subscription, partner page, integration, dashboard and everything we provide to you through them. Your own terms and conditions do not apply, even if we do not expressly object to them.

(4) The following order of precedence applies: first your order at checkout, including plan, billing term and price, then these terms and their annexes.

(5) These terms include four annexes: Annex 1 Plan overview, Annex 2 Content rules, Annex 3 Joint controllership arrangement for the Buybox, and Annex 4 Joint controllership arrangement for advertising pixels.

§ 2 Eligibility

(1) The subscription is available only to business customers. You enter into it for your trade, business or self-employed professional activity (section 14 of the German Civil Code, BGB). You do not need a registered company for this: you can also enter into it as an individual under your own name. Consumers (section 13 BGB) cannot enter into the subscription. A consumer is anyone who enters into the subscription predominantly for purposes outside a trade or self-employed professional activity.

(2) You can become a partner from any country from which we are permitted to sell. No subscription is possible from countries to which we do not sell because of sanctions or the rules of our payment provider; as of this version, these are Belarus, Cuba, Iran, North Korea, Russia and Syria. Checkout shows the available countries.

(3) How we pay you depends on your country. In countries in which Stripe opens a Connect account for our platform, we pay out through Stripe Connect (§ 30). As of this version, these are the member states of the European Union, Liechtenstein, Norway, the United Kingdom, Switzerland, the USA and Canada. Territories with their own country code at checkout are not included, even if they belong to the European Union, such as the Åland Islands, French Guiana, Guadeloupe, Martinique, Mayotte, Réunion and Saint Martin. In all other countries and territories, we pay out manually by bank transfer (§ 30a).

(4) At checkout, you enter your name and business address. If you subscribe as a company, you also enter the company name; otherwise you subscribe as an individual under your own name. You may provide your VAT identification number, whether as a company or as an individual; it is not mandatory. Your details must be accurate.

(5) Directly at the "Start for free" button is the sentence: "By clicking, I confirm that I am entering into the

subscription for my trade, business or self-employed professional activity and not as a consumer." By clicking the button, you give this confirmation. There is no separate checkbox for it. We store the confirmation with its wording and time.

(6) If, contrary to your confirmation, you enter into the subscription as a consumer, we may terminate it for good cause (§ 27(5)). In that case, you cannot rely against us on rights that the law grants only to consumers, to the extent the law permits this.

§ 3 Definitions

- **Platform:** our software with the dashboard, partner pages, integration, checkout and portals at soulsystem.app and its associated addresses.
- **Dashboard:** your area after logging in at partner.soulsystem.app.
- **Partner page:** the ready-made sales page under your brand that we provide for you.
- **Integration:** the second sales route, with the Buybox and purchase link for websites you operate yourself.
- **Buybox:** our order window. Your partner page shows it automatically. You embed it in your own websites, that is, websites you operate yourself. German end-customer texts call it "Bestellbox".
- **Purchase link:** your link to our order page.
- **Embed address:** an address of your own website that you enter in the dashboard and on which the Buybox may appear.
- **End customer:** anyone buying from us through your partner page, your integration, on the pages after the purchase or in the portal.
- **Portal:** the area in which an end customer finds their Reading, gifts and purchases.
- **Reading:** the personal numerological interpretation we create for an end customer and deliver in the portal. In the portal, the end customer can save it as a PDF.
- **Partnership analysis:** the interpretation for two people that an end customer buys together with the Reading or later in the portal.
- **Astrology:** the astrological soul blueprint from the date, time and place of birth that an end customer buys in their portal or adds to their Reading (§ 14(3)), also in the portal from the free insight (§ 14(8)).
- **Second Reading:** an additional Reading for a friend or partner in the same order.
- **Gift:** content the end customer receives with the Reading at no extra charge until the switch.
- **Switch:** the day from which we sell "Your Time", the course and the books as separate products instead of as gifts. We announce it to you by email in advance (§ 14(1)). If you accept these terms only when the switch already applies, everything that applies here from the switch applies to you from the start.
- **Pages after the purchase:** the pages on which, from the switch, we show an end customer further offers under your brand directly after their payment (§ 14(7)).
- **Reading to give as a gift:** a Reading that an end customer buys for another person in their portal from the switch, once we offer it (§ 14(1)). It is not a gift within the meaning of these terms.
- **Soul blueprint page:** the sales page for the Astrology at the address of your partner page, ending with the free insight (§ 5(11)).
- **Free insight:** the free insight into the Astrology and the Numerology that a visitor receives on the soul blueprint page, in a portal of its own (§ 14(8)).
- **Net proceeds:** the final price minus VAT minus the payment fee (§ 15).
- **Share:** your remuneration for a sale, as a percentage of the net proceeds (§ 15).
- **Balance:** the sum of your shares that we have not yet paid out to you.
- **Holding period:** the 14 days during which a share is held (§ 16).
- **Self-billing invoice:** the monthly statement we issue for your shares (§ 18).
- **Connect account:** your Stripe account to which we make payouts (§ 30).

- **Manual payout:** payout by bank transfer in a country without Stripe Connect (§ 30a).
- **Payout account:** your Connect account or, for manual payouts, your bank details (§ 30 and § 30a).
- **Free period, payment method exception, minimum term, billing period:** see § 9 and § 10.
- **Instalment plan and instalment:** an end customer's payment in 2 or 3 parts (§ 14).

§ 4 Conclusion of the contract

(1) At checkout, you choose the country from which you sell and enter your email address and a payment method. You start with the plan and billing period from the link you arrive through, otherwise with Starter, monthly. With "Want to start with Scale right away? Click here", you switch to Scale beforehand. Checkout shows the price in your country's currency (§ 11(2)).

(2) Beside the fields, you see a summary of the plan, price, free period, term and cancellation. You accept these terms by selecting a checkbox and click "Start for free". By clicking, you also confirm that you are subscribing as a business customer (§ 2(5)). The contract is thereby concluded for the plan and billing period shown in the summary. We confirm receipt immediately by email.

(3) You then enter your name and business address, as a company also the company name, and, if you wish, your VAT identification number (§ 2(4)). You then choose your plan, monthly or annual: with "Continue with Starter", you stay with Starter; with "Try Scale", you switch to Scale. Before you choose, you see the price, share and term for each plan and, for an annual subscription, the minimum term. If your choice differs from the plan or billing period under paragraph 2, this is a change under § 12; during the free period, it takes effect immediately and costs nothing (§ 12(2)). Under the payment method exception (§ 9(3)), you do not change your plan or billing period there but in the dashboard (§ 12).

(4) You can save these terms as a PDF and print them before ordering. Until your contract ends, you can find the version you accepted, with its date, in the dashboard under "Settings", "Subscription and billing". We store the version, language and time of your acceptance.

(5) After signup, you receive by email your login code for the dashboard and your contract confirmation with the version of these terms and the time you accepted them.

(6) You have no right of withdrawal, because you enter into the subscription as a business customer. There is therefore no withdrawal policy. Cancellation is governed by § 9(4) and § 27; there are no refunds (§ 11(5)).

B. Services

§ 5 What you receive

(1) Before signup, checkout shows you which plans exist and what they cost for each billing term. Annex 1 sets out what applies in every plan, which details differ by plan and where you can see them for your plan.

(2) Every plan includes a partner page under your brand, an address at soulsystem.app, the Buybox and purchase link, our checkout, creation and delivery of Readings, buyer portals, the dashboard, and learning materials and playbooks. You can use the partner page and integration together.

(3) The same layouts are available in every plan, namely those the dashboard offers you under "My page" > "Appearance". As at the date of this version, these are Constellation, Moon Garden, World Axis, Soul System and Night. Other layouts are shown as "Coming soon", without a promised date. If a software change removes a layout from the selection, § 35(3) and (4) apply. The default is Constellation with colour theme 1. For some layouts, such as Soul System, the colours of the page are fixed; there, the colour theme has an effect, if at all, only in your buyers' portal. For Night, you choose between two colour themes, Royal Blue and Purple; your choice applies to the page and to your buyers' portal.

(4) The dashboard shows you under "My page", "Address" whether you can connect a custom domain (§ 29).

(5) The platform provides "Your Time", the books "The Manifestation Lie" and "The Borrowed Self", and the

course "The Hidden Purpose" for buyers, each in German and English. Which of them your buyers' portal shows depends on the layout; in Constellation, the books and the course appear under "Your library" with every Reading, in the language of the order. Until the switch, buyers receive them as gifts with the Reading, at no extra charge. From the switch, we sell them as separate products (§ 14); lessons 1 to 3 of the course and chapter 1 of each book are then free in the portal. The platform also provides the Astrology, in German and English; buyers buy it in the portal or add it to their Reading (§ 14(3)). As at the date of this version, your buyers' portal shows the Astrology in every layout, namely in Constellation, Moon Garden, World Axis, Soul System and Night.

(6) From your dashboard, you open a demo portal with two fixed demo Readings, one in German and one in English, in the template and colour theme you have chosen and with your brand name. This shows you what your buyers see.

(7) "Disconnect page" takes the ready-made sales page offline. The purchase link, Buybox, checkout and portal remain available. Your plan, price and share do not change. You can reconnect the sales page.

(8) Kabbalah astrology (called "Astrology" in these terms, § 3) has been added as a new part. You receive it at no extra charge for your subscription; your buyers buy it (§ 14(3)).

(9) We do not promise you sales, revenue or any particular earnings.

(10) We operate the platform with customary care. We do not promise a specific percentage of availability. We give advance notice of planned maintenance that interrupts sales for a longer period.

(11) If your buyers' portal shows the Astrology, you also receive the soul blueprint page at the address of your partner page, in every plan and at no extra charge. It sells the Astrology with the free insight at the end (§ 14(8)). Its texts and its purple colour are fixed, whichever colour scheme you choose; it takes your brand and the name of the Reading from your details.

§ 6 Readings without a limit

(1) Every plan includes unlimited Readings, with no extra charge.

(2) Checkout never closes because of volume. Every order is delivered.

§ 7 Support

(1) You can find help under "Learning and help > Help centre". You send us a request through "Support". We reply within one working day in every plan. This deadline concerns our reply, not final resolution.

(2) At launch, people answer your requests. Help articles are available in German and English.

(3) No plan includes a dedicated contact person. We do not commit to a welcome talk in any plan.

(4) Support helps with software, sales and billing. It does not provide legal or tax advice, set up third-party systems or include support for the learning content (§ 8).

§ 8 Learning materials and playbooks

(1) Learning materials and playbooks are for self-study. We are not obliged to provide tuition, answers to comprehension questions about the learning content, assignments, tests or corrections, or a qualification.

(2) Learning materials and playbooks are for you alone. You must not pass them on or publish them.

(3) We deliver the content under § 5(5) to end customers ourselves, as a gift or as a purchase. If a book is both learning material for you and content for end customers, we also deliver it to them.

C. Term and price

§ 9 Free period and payment method exception

(1) The free period begins when you subscribe, unless the payment method exception in paragraph 3 applies. You provide a payment method. During the free period, no subscription fee is charged until your first paid sale. This period has no fixed duration in days.

(2) Your first paid sale ends the free period and triggers the first subscription charge.

(3) Payment method exception: if the payment method you provide has already had a free period with us, your subscription is chargeable from signup. The first charge is made as soon as you save your business details after signup. If you do not save them, it is made automatically, no earlier than one hour after signup. If you save them within that hour, your business address and your company name or, as an individual, your name already appear on the first invoice; your VAT identification number, if you provide it, appears there only in countries with Stripe Connect (§ 2(3)). This also applies if that free period ran in another partner account, for example with a shared card or a company card. It applies to every payment method we recognise: card (including via Apple Pay or Google Pay), direct debit from a bank account (such as SEPA Direct Debit), PayPal and Link. There is no free period for this signup. Before you order, checkout states this rule directly at the "Start for free" button, with the amount that is then due right after your order, and with the term. We only recognise after signup whether your payment method has already had a free period. If the exception applies, we tell you by email before we charge you.

(4) If you cancel during the free period before your first paid sale, the subscription ends immediately without subscription charges. From then on, your page, your purchase link and your Buybox no longer accept new sales. If your subscription was already paid upon signup under paragraph 3, this is not a free period; it then ends at the end of the paid period, and we refund nothing (§ 11(5) and § 27(2)).

(5) If your first paid sale is subsequently fully withdrawn from and refunded, your subscription continues as a paid subscription once started. For an annual subscription, the paid year also continues. We decide goodwill concessions case by case. The buyer's refund and reversal of your share remain separate.

(6) We tell you by email when billing starts, before we charge the first subscription fee.

(7) We provide no money-back guarantee. Your rights in respect of defects remain unaffected.

§ 10 Minimum term and renewal

(1) There are two billing terms: monthly and annual. Before signup, checkout shows you which billing terms are available for your plan.

(2) Monthly: A monthly subscription has no minimum term. It continues month by month and can be cancelled at the end of each billing month; this also applies to existing monthly subscriptions.

(3) Annual: the subscription is binding for the paid year from your first paid sale if your subscription starts with the free period. Under the payment method exception, the paid year begins with the first charge after signup (§ 9(3)).

(4) After the paid year, the subscription renews for another year at the annual price unless you cancel effective at the end of the paid year.

§ 11 Prices

(1) Before signup, checkout shows you the price of your plan for each billing term. Integration is included in every plan. Paragraph 2 applies to local currencies.

(2) You pay in your country's currency, using the same numerical amounts: euros in all European Union member states and in countries and territories that use the euro as their currency (such as Andorra, Monaco, San Marino, Vatican City, Montenegro and Kosovo), US dollars in the USA and Norway, Canadian

dollars in Canada, pounds sterling in the United Kingdom, Swiss francs in Switzerland and Liechtenstein, and US dollars in all other countries. You cannot switch to another currency.

(3) If you do not provide a valid VAT identification number, VAT is included in the price where it applies. If you provide a valid VAT identification number, whether as a company or as an individual, you pay the same amount without VAT where you are legally liable for the tax.

(4) We charge the fee to your stored payment method in advance for each billing period. Instalments are not available for the subscription.

(5) There are no refunds: we provide no refunds for cancellation, downgrading or changing the billing term, including no proportionate refunds. If you cancel a paid subscription, it ends at the end of the paid period, and you continue to use it until then (§ 27(2)). During the free period, § 9(4) applies. Your rights in respect of defects and both parties' right to terminate for good cause remain unaffected. If you terminate for good cause attributable to us, we proportionately refund the prepaid fee for the time after the contract ends. If we terminate for good cause attributable to you, we may claim the resulting damage, up to the fee payable until the next date on which you could have cancelled ordinarily, less any savings we make as a result. You may prove that no damage, or substantially less damage, was incurred.

(6) We change the prices and plans of an ongoing subscription only with your agreement (§ 35).

§ 12 Plan changes

(1) An upgrade is a change from Starter to Scale, a downgrade a change from Scale to Starter. Upgrades take effect immediately. We credit the remaining paid time proportionately.

(2) Downgrades and a change of billing term take effect at the end of the paid period. During the free period before your first paid sale, downgrades and a change of billing term take effect immediately and cost nothing. If you upgrade during this period, the new price applies from your first paid sale. No change starts a new minimum term.

(3) A layout not included in the new plan is replaced with an available layout. The same layouts are available in every plan (§ 5(3)).

(4) If the plan you switch to does not include a service of your previous plan, that service ends when the change takes effect. If use of your custom domain ends in this way, the domain then redirects to your address at soulsystem.app, including for checkout and portal.

(5) If the plan you switch to has no annual billing term, a switch from an annual subscription takes effect only at the end of the paid year.

(6) Your payout account remains in place. "Disconnect page" is not a plan change. A plan change applies jointly to the partner page and integration.

D. Sales and money

§ 13 We are the seller

(1) We sell to end customers in our own name and for our own account. The purchase contract exists solely between us and the end customer. You must not enter into contracts in our name or present yourself as the seller.

(2) Checkout, invoicing, delivery, withdrawal, defects, refunds and chargebacks are our responsibility. You have no claim against the end customer and must not accept money from them for products we sell.

(3) We may reject or refund individual purchases, for example where fraud is suspected.

(4) We are identified as the seller on the partner page, order page, Buybox, checkout, the pages after the purchase, the purchase window in the portal, confirmation and invoice. Beside checkout, the text states

"Seller and contracting party: Divinebeingmetatron Ltd. · Offered by", followed by your brand.

(5) The "Offered by" block with your name, postal address and email address is mandatory in every plan and on both sales routes. The setup in the dashboard requests these details. You keep them accurate and up to date. The address must be one at which post and authorities can reach you.

§ 14 Prices for end customers and payment arrangements

(1) End-customer prices are fixed. They are the same for every partner, every plan and both sales routes. Until the switch: Reading 179, partnership analysis 35, second Reading for a friend or partner 89. From the switch, which we announce to you by email in advance: Reading 37, "Your Time" 19, partnership analysis 17, second Reading for a friend or partner 19, one book 19, both books 29, course 89, in the first 7 days after payment for the Reading 67, course and both books 99, in those 7 days 77, once we offer it, a Reading to give as a gift in the portal 33, and the Astrology 37, as an addition to the Reading 16 (para. 3), in the portal from the free insight the Astrology and the Numerology together 53 (para. 8). The same numerical amount applies in every currency. Prices include VAT. If you accept these terms only when the switch already applies, the prices from the switch apply to you from the start; no announcement by email is needed in that case. If we reverse the switch, we tell you by email; new orders then use the prices until the switch again, and portals from the period after it continue to use the prices from the switch.

(2) You do not set prices or grant discounts. There are no discount codes.

(3) The partnership analysis is available in two ways: through a checkbox when ordering the Reading, or later in the portal. From the switch, "Your Time" is available in the same two ways, and the course and books on the pages after the purchase and in the portal. Once we offer it, the portal also offers a Reading to give as a gift; you receive your share under § 15 for every paid purchase of it. The Astrology is available in the portal for 37. As an addition to the Reading, it costs 16: through a checkbox when ordering the Reading, on the first page after the purchase and in the portal of this Reading in the first 7 days after payment for the Reading. You receive your share under § 15 for every paid purchase of it; in the order for the Reading, it is a separate item (§ 15(8)). We do not credit anything towards it. If the end customer withdraws from their Reading, the Astrology for 16 ends as well, even if they paid for it in a separate purchase; we refund the 16 to them and reverse your share of it (§ 19(1)). An Astrology bought in the portal of a Reading given as a gift stays open, and your share of it stays. We do not offer it in portals of an order at the prices until the switch.

(4) The end customer chooses how to pay from the payment options that checkout offers in their country. Each end customer sees all options available in their country. You have no switch to control this. If checkout offers instalments, the end customer can pay in 2 or 3 monthly instalments without a surcharge under our own instalment plan. Instalments then apply to the entire order. If the end customer's billing address is in the EU or the European Economic Area (EEA), which also includes Iceland, Liechtenstein and Norway, they pay in no more than 2 instalments, including in the portal. From the switch, outside the EU and the EEA, 3 instalments are available for the order with the Reading only from a total of 75 and for purchases that include the course in the portal regardless of the total. The pages after the purchase offer one payment only. In the portal, instalments are available for purchases that include the course and, once we offer them, for the Astrology, the Numerology, both together and unlocking the full Reading after its free beginning (Terms and Conditions for Readings, section 2.12) if the purchase costs at least 37; 3 instalments for these are available outside the EU and the EEA only from a total of 75. The end customer pays for all other purchases in the portal in one payment. The instalment plan, reminders and payment defaults are our responsibility.

(5) End customers can buy from all countries we have enabled for them. The country of the billing address determines the currency, payment methods and tax.

(6) No share is paid on gifts. Until the switch, the Reading costs the same with or without a gift. From the switch, "Your Time", the course and the books are no longer gifts but separate products, and you receive your share under § 15 for every paid purchase of them. Buyers keep what they received as a gift before the switch.

(7) From the switch, we show end customers further offers under your brand on the pages after the purchase directly after their payment, some at their own prices, for example the course with both books for 67 while the page timer is running. We credit what has already been paid, but only within the same portal: in a portal, the course and both books together cost no more than 99, with the course from the first 7 days no more than 77, and both books together no more than 29. Each Reading has its own portal, including a second Reading or one given as a gift; anything bought in a portal unlocks nothing in another. Checkout shows the end customer what they pay above the order button.

(8) On the soul blueprint page (§ 5(11)), a visitor receives the free insight at no charge, in a portal of its own. Of the Numerology, that is the Reading, the introduction and the chapter on the character number are free there; the portal shows the other parts with a lock. There, they buy the Astrology for 37 or, in the first 7 days after their request, the Astrology and the Reading, called the Numerology there, together for 53: 37 for the Astrology and 16 for the Numerology. After the Astrology on its own, the Numerology costs them 16 there until the end of the 7th day after its payment, and 37 after that. Until the list at the end of this paragraph applies, on the pages after a purchase on this route we show only the Numerology and the books. You receive your share under § 15 for every paid purchase, per item (§ 15(8)); there is no share for the free insight itself or its free parts. In this portal, the Astrology is the main purchase: if the end customer withdraws from it, the Numerology for 16 ends as well; we refund both to them and reverse your share of it (§ 19(1)). A Numerology for 37 stays, and your share of it stays. Books the end customer bought on the page directly after the purchase of the Numerology belong to it: if the Numerology ends through their withdrawal, including the withdrawal from the Astrology, they end as well; we refund them too and reverse your share of them. Anything they bought later in a separate purchase in the portal stays, and your share of it stays. If the end customer already has a Reading with you under the same email address, no insight is created; they receive the link to their existing portal. Once the Terms and Conditions for Readings from version 1.10 and the contract formation page from version 1.12 apply in a language, everything in the following list also applies there to pages and portals in that language, and none of it applies before:

- The end customer buys the Numerology on its own for 37, also without the Astrology, and both together for 53 only as long as they have not yet bought either of them there. An Astrology whose full price they received back no longer counts as bought there, except for the Astrology after the Numerology on its own: they then buy both together for 53 again within the period, and the Numerology costs them 37, not 16.
- After the Numerology on its own, without an Astrology bought before, the Astrology costs them 16 there as long as the Numerology is open, until the end of the 7th day after the payment for the Numerology, and 37 after that; if the Numerology is no longer open, the Astrology costs 37. If the end customer bought the Numerology on its own there and then the Astrology for 16, it is the other way round: the Numerology is then the main purchase; if they withdraw from it, the Astrology for 16 ends as well; we refund both to them and reverse your share of both (§ 19(1)). An Astrology for 37 stays, and your share of it stays.
- They buy "Your Time", the books, the course and the course with both books there at the prices in paragraph 1, also before they have bought the Astrology or the Numerology; the course prices of the first 7 days apply there only from the payment for the Numerology. Anything they bought this way before, in a separate purchase, stays, and your share of it stays.
- On the pages after a purchase on this route, we may offer the Numerology and the books, after the purchase of the Numerology the course and the books, and after the purchase of the Astrology also "Your Time"; we show no other offers there. "Your Time" is a separate purchase: if the end customer withdraws from the Astrology, "Your Time" stays, and your share of it stays.
- The course the end customer bought on the page directly after the purchase of the Numerology belongs to it, like the books from there: if the Numerology ends through their withdrawal, including the withdrawal from the Astrology, the course ends as well; we refund it too and reverse your share of it.

§ 15 Your remuneration

(1) For every paid sale through your partner page, your integration, the pages after the purchase or your end customers' portals, we owe you remuneration, called your share. It is 50% to 70% of the net proceeds, depending on the plan. The plan you have on the day of sale applies. Each purchase is a separate sale: the order with the Reading, each purchase on the pages after the purchase and each purchase in the portal. We calculate the share, holding period and reversal for each one separately. The dashboard shows you the rate for your plan under "Learning", "What you get".

(2) The share is our own debt under this contract. We pay it from our assets. As the seller, we are entitled to the end customer's payment.

(3) Net proceeds are the final price minus VAT in the end customer's country minus the payment fee. The payment fee includes Stripe's fee for the payment method, an additional 0.7% per instalment for instalment billing, and 2% for conversion into euros for payments in US dollars, Canadian dollars, pounds sterling or Swiss francs.

(4) We alone bear these costs: tax calculation by Stripe, any Stripe invoicing fee, the cost of creating Readings and the fees for your Connect account (§ 30).

(5) The share is always calculated from the amount in euros. We round it to the nearest cent using standard commercial rounding. The remainder stays with us.

(6) Example with assumed fees: a purchase of €37 at 19% VAT includes €5.91 tax. With a payment fee of €0.81, net proceeds are €30.28. With a share of, for example, 50%, you receive €15.14 of this. Actual fees depend on the payment. The example says nothing about your future sales.

(7) If the end customer pays in instalments, you receive your share for each paid instalment. There is no share for an unpaid instalment.

(8) If a payment has several items, we calculate the share per item. We allocate the payment fee across the items in proportion to their amounts.

§ 16 Balance and holding period

(1) Your share appears in the dashboard as "on hold until" with a date for 14 days, then as "available". For instalments, the holding period applies to each paid instalment from its payment date.

(2) The holding period covers the end customer's withdrawal and early chargebacks.

(3) At launch, only the holding period applies. If chargebacks on your sales show that it is insufficient, we may retain part of your new shares for longer, up to 20% of new shares and for no more than 30 days from the payment date. The 14-day holding period is included in those 30 days. We tell you beforehand in text form how much we will retain, for how long and why.

(4) We pay no interest on your balance.

§ 17 Payouts

(1) We pay out once a month, on the same day for all partners and plans. The expected next date appears in the dashboard on the overview. There is no minimum amount.

(2) How payouts are made depends on your country (§ 2(3)): in a country with Stripe Connect, you set up a Connect account and we pay out through it (§ 30). In any other country, you provide your bank details and we pay out manually by bank transfer (§ 30a). You can sell before doing so. While the account is missing, Stripe still requires information, or your bank details are missing or not yet verified, your balance remains on hold. We remind you regularly and when the contract ends.

(3) Exception in a country with Stripe Connect: if Stripe permanently rejects your account, or you have no account eligible to receive payouts three months after the contract ends, we make a one-off payout of your

balance upon your request in text form, by PayPal or bank transfer to an account in your own name. We first verify your identity and the account. You receive the corresponding self-billing invoice as a PDF. You bear the costs of this payment.

(4) Your balance does not expire. Statutory limitation periods apply.

(5) For the self-billing invoice, we need your name or company name and postal address. Providing your tax status and VAT identification number is optional.

§ 18 Self-billing

(1) We settle accounts monthly by self-billing invoice. This means that we issue the document for your remuneration, rather than you. This is called "self-billing". These terms constitute the agreement for it.

(2) The self-billing invoice states your available shares and everything offset against them (§ 19), each on a separate line, and your referral remuneration (§ 31).

(3) You accept each self-billing invoice in the dashboard by clicking "Accept statement", or object to it there. We transfer payment only after acceptance. If you object, the money remains on hold while we resolve the matter with you. A self-billing invoice to which you object does not qualify as an invoice.

(4) If you are not a business for tax purposes or do not provide your tax status and VAT identification number, the document is called a "Statement" and does not show VAT.

(5) You are responsible for paying tax on your remuneration.

§ 19 Refunds, withdrawal, chargebacks and offsetting

(1) If we refund a purchase, the end customer withdraws or a chargeback occurs, we reverse your share for that item. Withdrawal in the first 14 days affects only held funds, because we do not pay out until afterwards.

(2) A later chargeback can result in a negative balance. We offset it against later shares. Payouts are suspended while a negative balance remains outstanding. We may claim a negative balance from you even after the contract ends.

(3) We offset outstanding subscription amounts against your balance before the next transfer, always for whole invoices only. The self-billing invoice shows this on a separate line. We do not engage a debt collection agency for this. Your right to set off undisputed claims or claims established by a final court judgment remains unaffected.

(4) We divide the fee Stripe charges us for a chargeback (€20 as at the date of this version) in proportion to the shares. If you caused the chargeback through advertising that breaches the content rules, you bear the entire fee.

(5) If a card network gives an early warning of suspected fraud, we hold the payout for that sale and explain the reasons.

(6) For instalments: if the end customer withdraws, their paid instalments are refunded and outstanding instalments are cancelled. We reverse your share of the paid instalments. If the end customer fails to pay an instalment, everything that belongs to that order is paused until payment; separate paid purchases remain open. If an instalment for a purchase of the Astrology, the Numerology, both together or unlocking the full Reading after its free beginning in the portal remains unpaid after the last attempt, the entire portal is paused until payment, including separate paid purchases; if an instalment for the course remains unpaid, only the course is paused. For an order at the prices until the switch, the entire portal is paused as before. This is not a measure against you. If they never pay, we both bear the default proportionately because shares are paid only on paid instalments.

(7) If a payment has several items, all of this applies per item.

E. Content and obligations

§ 20 Your content and rights in it

(1) Your content consists of your brand details, logo, photo, Reading name and the details in the "Offered by" block.

(2) You grant us a non-exclusive, worldwide right to use your content. We may store, reproduce and technically adapt it for formats, previews and players; make it publicly accessible; display it on the partner page, order page, Buybox, checkout, portal and in emails; and deliver it to end customers. This right is non-exclusive. You may continue to use and sell your content yourself.

(3) The rights granted serve the provision of the agreed services under your brand.

(4) For new sales, these rights apply during your contract. Afterwards, we may continue using the logo and Reading name to display portals of buyers already supplied, for as long as we operate the platform.

(5) We may use service providers for storage and video. We do not transfer rights in your content to them.

(6) You warrant that you hold all rights in your content, including images, music, fonts, third-party texts and AI-generated content; that every person depicted has consented; and that you upload nothing unlawful. If third parties assert claims against us due to your content, you indemnify us against them, including reasonable defence costs.

(7) When uploading, you confirm your rights by selecting a checkbox. We store the time.

§ 21 What you may do and what remains with us

(1) You may advertise your partner page, integration and portal under your brand and show short excerpts.

(2) You select the layout and colour theme and enter the brand details provided for in the dashboard. Sales texts, testimonials and Reading texts remain fixed.

(3) You are responsible for your brand details and images. For breaches of the content rules, we may block affected content and explain the reasons (§ 25).

(4) You must not change or translate the Reading texts. You must not investigate the calculation method, replicate the platform or use any of it to train an AI.

(5) All rights in the platform, calculation method, interpretation texts, templates, learning materials and gifts remain with us or our licensors.

(6) For integration, you may embed the Buybox only on websites entered in the dashboard as embed addresses. You may share the purchase link anywhere, for example in your bio, a collection of links and messages. You must not change the code, imitate the checkout or Buybox, or present yourself as the seller.

(7) You operate under your own brand. You do not have to identify the source of the system and texts. The seller information under § 13 remains required. Your pages do not show the notice "Created with soulsystem.app" in any plan (Annex 1).

§ 22 Content rules and advertising

(1) The content rules (Annex 2) apply to brand details and images, your own website, thank-you page, posts containing a purchase link and all advertising for the Readings.

(2) The core rules: no promises of healing, no diagnoses, no references to illnesses, no "guaranteed", no promises of money or success, no fabricated testimonials, no sales pressure and no infringement of others' rights. Readings are no substitute for medical, psychotherapeutic, legal or financial advice.

(3) You present the Readings as your offering under your brand. You must not disguise advertising as a neutral recommendation.

(4) Every partner page displays the fixed section containing our verified testimonials, without names or initials. You must not add your own testimonials or use ours outside this section.

(5) You state value claims and struck-through prices only if the price is genuine, meaning the product is or was sold at that price. You must not advertise the statutory right of withdrawal as a special advantage.

(6) The reason for these rules: we are the seller. We may also be held liable for your advertising of our products, on any channel. Our payment provider also prohibits such content.

(7) Upon request, you tell us where you advertise our products.

(8) If there is a violation, we notify you of its location. You remedy it within 48 hours. If it refers to healing or illness, we pause sales immediately (§ 26).

(9) If we receive a justified legal warning as a result of your violation, you reimburse us for the costs.

(10) When recruiting new partners (§ 31), you must not promise earnings. You state only the share and the calculation example per Reading.

§ 23 End-customer enquiries

(1) Replies to the Reading email go to your support address in every plan.

(2) You answer questions about the Reading's content yourself.

(3) We handle technology, payment, withdrawal, defects, refunds and data. If you receive such an enquiry, you refer it to our support without undue delay. You do not decide on withdrawals or refunds. For buyer withdrawals, you see only the sales status; the case, message and contact details remain exclusively with our support.

(4) Our contact address remains available to end customers in the Legal Notice and in the Withdrawal Policy for Readings.

§ 24 End-customer data

(1) For each sale, you see the order number, date, product, amount, country, payment arrangement and payment method. You do not see end customers' names or email addresses. For instalments, you see one line per paid instalment. You do not see data about a second person from a partnership analysis or second Reading.

(2) You also see the source from the parameter added to your link, and visits and purchase conversion rates by source as aggregate numbers only. We count these on the server, without cookies or pixels. In addition, you can enter your own advertising pixels under paragraph 4.

(3) If an end customer replies to the Reading email and writes to you, you use their message and address only to reply, not for your own purposes.

(4) Under "My page" > "Ads", you can enter your Meta pixel and your Google Ads conversion, in every plan. Only if the visitor has consented in the banner do we report the page view, checkout and purchase from our server to Meta and the purchase on the thank-you page to Google. Nothing from Meta or Google ever loads in the portal; we report a purchase in the portal from the free insight from our server to Meta only if the visitor consented in the banner when signing up on the soul blueprint page. Once the privacy notice for partner pages in a language also names the sign-up as a report to Meta, the following applies to the free insight in that language instead: If the visitor consented in the banner when signing up on the soul blueprint page, we report the sign-up and every later purchase in this portal, or on a page after a purchase from it, from our server to Meta; otherwise none of it. You cannot add your own code or other services there. The arrangement in Annex 4 applies to the pixels. We store the access token for Meta in encrypted form and never display it again.

(5) On your own website used for integration, you conduct your own measurement and are solely

responsible for it. The Buybox does not pass end-customer data to your website, only the "Checkout ready" signal and order number.

(6) Of the free insight itself, you see only figures in the dashboard, such as views of your soul blueprint page and requests, never names, email addresses or birth data. You see purchases in the portal from the free insight like any sale (para. 1). We send the emails about the insight under your brand.

§ 25 Content, review and complaints

(1) We store your content on your behalf. § 22 and Annex 2 state what is prohibited.

(2) We review violations reported to us or identified by us. Notices can be submitted through the contact point and notice route. "Reporting Content under the DSA" explains how they are handled.

(3) We explain every restriction by email, for example blocking a logo or photo, blocking a page, holding a payout or pausing your sales.

(4) If you disagree, reply to the email explaining the reasons. A person then reviews the decision again and replies to you.

(5) We report suspected criminal offences threatening people's lives or safety to the authorities.

F. Pauses, blocks and ending the contract

§ 26 Pauses and blocks

(1) Outstanding subscription payment: if a charge fails, Stripe retries it and reminds you by email. During this time, the partner page, integration and checkout remain open. If the invoice is still outstanding after the final attempt, the partner page, integration and checkout no longer accept new sales. If you pay the outstanding invoice while your subscription still exists, they reopen automatically. The pause itself costs nothing.

(2) Chargebacks: we reverse the share for every chargeback (§ 19). Sales continue. For the first and second chargeback within 90 days, you receive a notice, with a warning on the second. Chargebacks do not automatically pause your sales. From the third chargeback within 90 days, we review the individual case and may pause your sales until we reactivate them after review. The same applies if a conspicuously high number of payments are charged back in a calendar month with at least 20 payments. Chargebacks we win do not count. An instalment counts as one payment.

(3) Violations: for a breach of these terms or the content rules, we may block a logo or photo, block your page or pause all your sales. We choose the least restrictive measure that remedies the violation. The deadlines in § 22(8) apply. For misuse of integration (§ 37), we pause immediately.

(4) We explain the reasons for every measure (§ 25). A pause affects the partner page, Buybox, purchase link and checkout.

(5) End-customer portals remain open during every pause.

(6) We never block sales because of the number of Readings (§ 6).

(7) You can cancel during a pause too.

§ 27 Cancellation

(1) You cancel in the dashboard under "Settings", "Subscription and billing" using "Cancel contracts here". You log in to do so. Login uses a one-time code sent to your email address. You immediately receive confirmation by email with the time and contract end date.

(2) A monthly subscription ends at the end of the billing month. An annual subscription ends at the end of the paid year. § 9(4) applies to cancellation during the free period before the first paid sale; it separately

distinguishes the payment method exception.

(3) There is no refund. § 11(5) applies.

(4) An offer to stay may appear beside the cancellation button. You do not have to consider it. After cancellation, we optionally ask for your reason.

(5) Either party may terminate without notice for good cause. Good cause for us includes in particular: investigating the calculation method, passing on learning materials, repeatedly breaching the content rules, committing fraud, misusing integration (§ 37) or having entered into the subscription as a consumer contrary to your confirmation (§ 2(6)).

(6) We may cancel the subscription ordinarily on the same end dates as you, with 30 days' notice.

§ 28 End of the contract

(1) When the contract ends, the partner page, Buybox, purchase link and checkout are switched off.

(2) We pay out your balance after the holding period. A negative balance remains outstanding and may be claimed.

(3) Buyers already supplied retain their portals and everything that belongs to their purchases, including the gifts for as long as we operate the platform. Your platform address, logo and Reading name are retained for this purpose. If we close portals, we inform buyers by email at least three months beforehand.

(4) After the end of the contract, you can reach "Payouts" > "Invoices" in the dashboard without a time limit and download your self-billing invoices, statements and monthly statements there as PDFs. If you still have a balance, you can also reach "Payouts" > "Balance" with your payout account until it has been paid out. You can still reach the confirmation page of your cancellation for 30 days after the end of the contract. The other areas of the dashboard are blocked; paragraph 5 applies to the data export.

(5) You can export your data (§ 41); after the contract ends, you contact support for this. End-customer data is not included because we are responsible for it.

(6) After the 30-day retrieval period from the end of the contract, we delete your photo, the "Offered by" block and Buybox settings. The logo, the name of the Reading and your access under paragraph 4 remain. This page cleanup does not wait for outstanding invoices.

(7) The tiered remuneration under § 31(4) continues after the contract ends, for as long as the referred partners sell, including after termination for good cause.

G. Domain, payout account and referrals

§ 29 Custom domain

(1) If you can connect a custom domain (§ 5(4)), it also applies to checkout and the portal. You buy it yourself from a provider of your choice. To connect it, you set the entries that the dashboard shows you to copy at your provider. We then check them.

(2) The domain contract exists solely between you and your provider. We do not buy, manage or renew domains.

(3) When you connect it, the dashboard asks whether a website is already running on your domain. If you answer yes, your page goes on reading. in front of your domain, and your website remains. If you answer no, your page goes on the domain itself and the portal on reading. in front of it; a website that is there will be replaced.

(4) After the contract ends, you do not have to keep the domain pointing to the platform. End customers can then access their portal through your address at soulsystem.app. The link in the email with the Reading uses this address from the start.

§ 30 Stripe Connect

(1) If your country is covered by Stripe Connect (§ 2(3)), you set up a Stripe account in the dashboard with the step "Set up payouts", as a company or as an individual. Stripe verifies your identity and is independently responsible for doing so. You accept Stripe's Connected Account Agreement there.

(2) In these countries, the account is mandatory, no later than before the first payout. In all other countries, there is no Connect account; § 30a applies there.

(3) We remain the seller. Your account receives only your remuneration. We transfer it in euros once the share is available and the self-billing invoice has been accepted. Stripe pays it from your account to your bank.

(4) We bear Stripe's fees for your Connect account and for payouts to your bank. If your Connect account is not denominated in euros, Stripe converts the currency. You bear the conversion cost at Stripe's exchange rate.

(5) You manage your account in the dashboard under "Payouts", in the box "Your payout account".

(6) If your balance is negative, we may reverse a transfer to the extent covered by the balance in your Connect account.

(7) If Stripe permanently refuses to enable your account, we may pause your sales. § 17(3) applies to your balance.

§ 30a Manual payouts

(1) If your country is not covered by Stripe Connect (§ 2(3)), we pay your remuneration manually by bank transfer. You then do not need a Connect account, and no contract with Stripe is formed for this purpose.

(2) For this purpose, you provide your bank details in the dashboard under "Payouts", in the box "Your payout": the name of the account holder, the IBAN or account number, the BIC or SWIFT code, the name and country of your bank and, in the field "Further details from your bank", anything your bank requires for a transfer from abroad, such as a bank code (the BSB in Australia, the IFSC in India). The account must be in your name or, if you subscribe as a company, in the name of your company. You keep these details accurate and up to date.

(3) Before we transfer to your bank details for the first time, we verify that the account belongs to you. We verify new bank details after every change, before the next transfer. For this, we may request proof, such as a bank statement or an identity document. Until the verification is complete, your balance remains on hold. After every time you save your details, we send you an email without bank details. If you did not change anything, please reply to it immediately; we then transfer nothing until we have resolved it with you. We may withhold a payout if a law prohibits it or your details are incorrect; your balance then remains on hold and does not expire (§ 17(4)).

(4) We pay out once a month, on the same day as through Stripe Connect (§ 17(1)), once the share is available and the self-billing invoice has been accepted (§ 18(3)). We transfer in euros. If your bank converts the amount into another currency, you bear that conversion at your bank's exchange rate and charges (paragraph 6). How long the money takes to reach you depends on the banks.

(5) There is no minimum amount. Each month, we pay out whatever is available, including small amounts. After the contract ends, we pay out your remaining balance (§ 28(2)).

(6) We bear all fees for the transfer: our bank's fee and, where they arise for the transfer, the fees of intermediary banks and of your bank. If your bank nevertheless deducts a fee for receiving the transfer, we reimburse it on proof, such as a bank statement, with the next transfer. This way, you receive your share in euros in full. The only exceptions are conversion into another currency (paragraph 4), because we transfer in euros and have no influence on your bank's exchange rate or charges, and the fees of a transfer that is returned because your details are incorrect (paragraph 7).

(7) If a transfer is returned because your details are incorrect, we write to you. As soon as your details are correct, we send the transfer again and deduct the fees of the returned transfer. In the dashboard, the self-billing invoice still shows the first transfer. Paragraph 6 applies again to the new transfer itself.

(8) For each manual payout, you receive the self-billing invoice under § 18; with the self-billing invoice, you see the date and amount of the transfer in the dashboard. We tell you by email about a reimbursement under paragraph 6 and a deduction under paragraph 7; they do not change the self-billing invoice. You pay tax on your remuneration yourself in your country (§ 18(5)).

(9) If Stripe Connect later becomes available for your country, we tell you by email. You then set up a Connect account (§ 30), and from then on we pay out through it.

§ 31 Referrals

(1) If you refer a new partner, you receive 10% of their subscription payments excluding VAT. This applies for as long as you remain a partner and the referred partner pays.

(2) No remuneration is paid on their shares. Self-referrals receive no remuneration. We check for this.

(3) We pay the remuneration with the monthly self-billing invoice, by the same route as your shares (§ 17(2)).

(4) In addition to paragraph 1, you receive tiered remuneration. The basis is our portion of the net proceeds from sales by partners you referred, meaning what remains with us after their share (§ 15). This does not reduce their shares. If a purchase is refunded, withdrawn from or charged back, you retain the tiered remuneration for that purchase. We bear the loss. Unlike the remuneration under paragraph 1, tiered remuneration does not end when you cease to be a partner. It continues for as long as the partners you referred make sales. The rate depends on the number of your active referred partners. A referred partner with an ongoing paid subscription is active.

Active referred partners	Rate
Fewer than 100	2.5%
100 or more	3%
200 or more	4%
300 or more	5%
1,000 or more	10%

(5) We recalculate your number of active referred partners every day. Each sale receives the rate applicable on the day of sale. If you reach a higher tier during the month, the higher rate applies from that day. If the number of active referred partners falls below a threshold, the rate falls accordingly. Tiered remuneration applies from the day the dashboard displays it. It is not paid for earlier periods.

H. Final provisions

§ 32 Confidentiality and no replication

(1) You keep confidential anything you learn about the calculation method, interpretation texts, learning materials and internal structure of the platform. You must not disclose it or replicate the platform. This also applies after the contract ends.

(2) There is no non-compete obligation. You may also have other offerings.

(3) You pay a contractual penalty for each culpable breach of these three obligations: not investigating the calculation method, not passing on learning materials and not disclosing confidential information. We determine the amount at reasonable discretion, subject to review by a court in the event of a dispute. It is credited against any damages.

(4) In addition, our statutory claims for injunctive relief and damages, blocking and termination for good cause remain available.

§ 33 Liability

(1) Our liability is unlimited in cases of intent or gross negligence, for damage to life, body or health, and wherever liability is mandatory by law.

(2) In cases of slight negligence, we are liable only if we breach an obligation on whose fulfilment you are entitled to rely under this contract. We are then liable for damage that is typical and foreseeable under a contract of this kind.

(3) Liability under paragraph 2 is limited per incident to the subscription fees for the 12 months preceding the damage.

(4) These rules also apply to our employees and service providers.

§ 34 Data protection

(1) We are independently responsible as controller for partner and end-customer data. There is no data processing agreement between you and us. The "Privacy Policy for the Platform and Dashboard" explains what we do with your data.

(2) We are joint controllers for only two steps: loading the Buybox on your own website (Annex 3) and, if you enter advertising pixels, collecting and transmitting data to Meta and Google (Annex 4).

(3) We also send offers relating to our plans to the email address from your order. You can object at any time, for example by email to contact@soulsystem.app, without incurring any costs other than normal transmission costs. After the contract ends, we send such offers for no more than 12 months, and only relating to our plans and returning to a subscription.

§ 35 Changes

(1) If we wish to change these terms, we email you the new version with the changes. A change applies to you only once you click to accept it in the dashboard. This applies to all partners. Silence is not acceptance.

(2) If you do not accept, the old version continues to apply to you. We may then cancel the subscription ordinarily, and, for an annual subscription, no earlier than the end of the paid year.

(3) We continue to develop the software. We may change it for a valid reason: a change in the law, security, a change of service provider, or new and improved functions. This creates no additional costs for you. We inform you clearly and understandably by email.

(4) If a software change impairs your access or use to more than a minor extent, we give you reasonable advance notice. You may then end the contract free of charge within 30 days.

(5) If you took out your subscription before this version as a consumer ("Private person" at checkout), the version you last accepted continues to apply to you, together with your rights as a consumer. We do not offer you this version, or later versions that apply only to business customers, for acceptance. If you now use the subscription for your trade, business or self-employed professional activity, you can cancel it (§ 27) and take out a new subscription as a business customer with a different email address. With your current address, this is only possible once your current partner account has been deleted: you can request the deletion (§ 41(1)), we delete it no earlier than 30 days after the end of the contract, and it waits while anything under § 41(6) still requires processing. Until then, this is not possible with your current address, not even after your subscription has ended and not with the same address written differently, for example with a plus sign: there is only one partner account for each email address. In every case, the new subscription runs in a new partner account; the new subscription is then governed by the version that applies when you take it out.

§ 36 Governing law, jurisdiction and language

(1) German law applies.

(2) The place of jurisdiction is Larnaca in Cyprus.

(3) The contract language is the language in which you order, German or English. Checkout states it before you order. If the language versions differ, the version in your contract language prevails.

(4) If a provision of these terms is invalid, the remainder stays valid. The law takes its place.

I. Integration and Readings

§ 37 Integration

(1) The Buybox and purchase link always lead to our checkout at the platform address. The Buybox only creates an order record. Payment never takes place on your website.

(2) Integration may go live before your payout account is ready (§ 30 and § 30a). Your balance accumulates until then (§ 17).

(3) The purchase link goes live once your brand is set up, even without an embed address. On your partner page, the Buybox appears automatically, without an embed address. For the Buybox on websites you operate yourself, you enter at least one embed address and keep your embed addresses up to date. We store them with your account because our payment provider also reviews the websites from which checkout is accessed.

(4) If a page at an embed address breaches the content rules, we pause your sales or block your page (§ 26(3)).

(5) Misuse includes in particular: imitating checkout or the Buybox, embedding the Buybox on third-party or unregistered websites, or extracting data from the Buybox. Misuse leads to a pause (§ 26) and constitutes good cause for termination (§ 27).

(6) Your own thank-you page is located at an embed address. We append only the order number to its link.

§ 38 Obligations on your own website

(1) You provide a service yourself on your own website. You need your own legal notice and privacy notice there.

(2) You include the Buybox notice in your privacy notice. The wording is in Annex 3, item 8.

(3) You must not make any statement presenting yourself as the seller of the Readings (§ 13).

(4) If you display the Reading on a page with a price and a purchase option, our name and postal address must accompany it. The Buybox's seller line covers this. If you state a price on a page without a Buybox, using only a purchase link, you add the same line.

(5) The content rules apply as a contractual obligation to texts, images and advertising on your own website (§ 22). We carry out no technical check there.

§ 39 No invoice for Readings

Readings cost you nothing on top of the subscription (§ 6). We do not issue you a separate invoice for Readings.

§ 40 Scope of services

The agreed services are defined in § 5 and Annex 1. Further platform services become part of the contract only when expressly offered and agreed.

J. Switching and data export

§ 41 Switching and data export

(1) You can request at any time to switch to another provider, export your data or have it deleted. You do not have to observe a separate notice period for this. Use "Export data" in the dashboard or contact support.

(2) A transitional period of no more than 30 calendar days begins with your request. During this period, we support you, the platform continues to operate for you, and security remains the same. You may extend the transitional period once.

(3) The Help centre article "Export your data and delete your account" and the help file included with every export explain the export process, formats and limits. On request, we assist you with your exit plan.

(4) The following data is included: partner-page and Buybox settings, Reading name, logo and photo, embed addresses, the sales list without buyers' names and contact details, and self-billing invoices, statements and invoices. You receive JSON and CSV files and the available original files.

(5) The following data is excluded: interpretation texts, Readings, calculation method, templates, learning materials and platform code, because they belong to us, and end-customer data, because we alone are responsible for it.

(6) After the transitional period, you can retrieve your exportable data through support for at least another 30 days. Page cleanup after the contract ends covers the photo, "Offered by" block and Buybox settings, and their corresponding values in the change log. The logo, the name of the Reading and your access under § 28(4) remain. Requested account deletion is a separate process: it waits while balances, negative balances, outstanding self-billing invoices, buyer instalments, or subscription invoices still require processing. Once your account has been deleted, we no longer send emails to your account's address, including about self-billing invoices, monthly statements and fraud warnings; invoices and records continue to be created. A confirmation of your cancellation that is still pending goes to the addresses we stored with your cancellation. Documents subject to statutory retention and embed addresses remain under the periods set out in the privacy notice.

(7) We charge nothing for switching or export.

(8) The fixed term remains in place. If you switch before the end of the paid year, the fee for that time remains owed. We do not refund the paid remainder of an annual subscription. Before purchase, checkout states, for an annual subscription, the minimum term and, for both subscriptions, that there are no refunds.

(9) The contract ends when the switch is completed. If you request deletion only, it ends after the transitional period expires.

(10) The servers on which the platform runs, according to the providers' information: Vercel, based in the USA, hosts the platform; the dashboard runs on servers in Ireland. The database and files are stored with Supabase, based in Singapore, in Ireland. Payments run through Stripe Payments Europe Limited in Ireland, with processing also in the USA. Backups are stored with Hetzner Online GmbH in Germany; they are created at GitHub, based in the USA. The Privacy Policy for the Platform and Dashboard lists all other recipients. To protect against unlawful government access from countries outside the EU, the transfer bases set out there apply to each provider. In addition, the connection to our websites is encrypted, and backups reach Hetzner encrypted; Hetzner does not have the key.

Annex 1: Plan overview

Checkout states the currency and information applicable to your tax status. The local-currency rule in § 11(2) remains applicable.

The following applies in every plan:

- Free period until the first paid sale, except under the payment method exception (§ 9).
- Monthly or annual billing term (§ 10).
- Minimum term for annual billing the paid year under § 10(3).
- The layouts under § 5(3), 8 colour themes per layout, 2 for Night (Royal Blue and Purple); for Soul System, the colours of the page are fixed, and the colour theme has an effect there, if at all, only in your buyers' portal.
- Partner page, platform address, Buybox and purchase link.
- Checkout, Readings, buyer portal and the content under § 5(5), from the switch with the pages after the purchase.
- Unlimited Readings, with no extra charge (§ 6).
- Demo portal with two demo Readings.
- Soul blueprint page with the free insight, if your buyers' portal shows the Astrology (§ 5(11)).
- Learning materials and playbooks in the fixed AI library.
- Reply from support within one working day.
- Payout through Stripe Connect or, in countries without Stripe Connect, manually by bank transfer (§ 2(3), § 30a).
- No notice "Created with soulsystem.app" in the footer of the partner page, order page and checkout.

The following details differ by plan; each item states where you can see it for your plan:

- Price for each billing term: at checkout.
- Share of net proceeds, 50% to 70% depending on the plan: under "What you get".
- Custom domain in the Scale plan: under "My page", "Address" (§ 5(4)).

If your payment method has already had a free period with us, including in another partner account, your subscription is chargeable from signup, with the first charge after you save your business details or, without them, no earlier than one hour after signup; there is no free period (§ 9(3)).

Which layouts you can select is set out in § 5(3); they are the same in every plan. Further layouts are shown as "Coming soon", without a release date.

Buyer prices are the same in all plans. Until the switch: Reading €179, partnership analysis €35, second Reading €89; all three together cost €303. From the switch (§ 14(1)): Reading €37, "Your Time" €19, partnership analysis €17, second Reading €19, one book €19, both books €29, course €89 (in the first 7 days €67), course and both books €99 (in the first 7 days €77), once we offer it a Reading to give as a gift in the portal €33, the Astrology €37 (as an addition to the Reading €16; in the portal from the free insight together with the Numerology €53, § 14(8)). The same numerical amounts apply in other purchase currencies. Buyers pay in one payment or, if checkout offers instalments, in two or three monthly instalments without a surcharge. If their billing address is in the EU or the EEA, they pay in no more than two instalments. For €179, this means 2 × €89.50 or, outside the EU and the EEA, €59.67 + €59.67 + €59.66, and for €37, 2 × €18.50; from the switch, three instalments are available outside the EU and the EEA for the order with the Reading only from €75, and for purchases that include the course in the portal regardless of the total. Once we offer them, instalments are also available in the portal for the Astrology, the Numerology, both together and unlocking the full Reading after its free beginning if the purchase costs at least €37, with three of them outside the EU and the EEA only from €75; for €37 and €53, this means no more than two (§ 14(4)). Instalments then apply to the entire order; delivery takes place after the first payment is confirmed. Other payment methods depend on the country and availability at checkout.

Annex 2: Content rules

1. Scope of the rules

Everything you write, upload or publish yourself that relates to our products: brand details, logo, photo,

your own website and your own thank-you page used for integration, every post with a purchase link, including on social media, and any other advertising for products we sell.

2. What is prohibited

- Promises of healing, diagnoses and any reference to illnesses or symptoms.
- Statements that a Reading replaces a doctor, therapy or medication, and endorsements from medical professionals or celebrities.
- "Guaranteed", "certain success", "proven" or "scientifically established".
- Promises of money, earnings or getting rich quickly.
- False scarcity, discounts and struck-through prices for the Reading. Prices are fixed.
- Presenting the statutory right of withdrawal as a special advantage, for example "risk-free".
- A different Reading price. The system displays the price.
- Fabricated testimonials, your own testimonials, and our testimonials outside the fixed section.
- Sales pressure and intrusive additional offers.
- Content in which you do not hold all rights, and images of people without their consent.
- Statements presenting you as the seller, and advertising disguised as a neutral recommendation.

3. What always applies

Readings are no substitute for medical, psychotherapeutic, legal or financial advice.

4. Gifts and value claims

- You may call a gift "included", "a gift", "€0" or "free" if a visible statement alongside makes clear that the gift comes with the purchase of a Reading.
- From the switch, you no longer advertise "Your Time", the course or the books as a gift, included or free with the Reading (§ 14(6)).
- Anything that is a fixed part of the Reading is called only "included" or "included in the Reading".
- You state a value or struck-through price only if the product is or was sold at that price. Without a substantiated individual price, it is labelled "included".
- Until an individual price has been substantiated and approved, we display gifts as "included".

5. Content review

People review reports of violations. When brand details are saved, the system checks only the form, such as length and special characters, not the content. You remain responsible for the content.

6. What happens in the event of a violation

We notify you of its location. You remedy the violation within 48 hours. If it refers to healing or illness, we pause sales immediately. Further details are in § 22, § 25 and § 26.

Annex 3: Joint controllership arrangement for the Buybox

This arrangement applies between you and us under Article 26 of the General Data Protection Regulation. You accept it together with these terms. It applies for as long as you have embedded the Buybox on your own website.

1. What this covers

When you embed the Buybox on your own website, a visitor's browser sends their IP address and technical information to us when it loads. You and we are joint controllers only for this step.

2. What applies before and afterwards

You are the sole controller for your website itself. We are the sole controller for everything after loading: entries in the Buybox, the order, payment, Reading and portal.

3. Purpose and legal basis

The purpose is to offer visitors the opportunity to buy on your website. The legal basis is our shared legitimate interest in doing so (Article 6(1)(f) of the General Data Protection Regulation).

4. Your tasks

- You embed the Buybox only as we specify: only at registered embed addresses and without changing the code.
- You inform visitors in your privacy notice using the text in item 8.
- If you receive a data subject request concerning this step, you forward it to us without undue delay.

5. Our tasks

- We ensure the security of the Buybox and the data received by us through it.
- We handle data subject requests centrally and act as their contact point.
- We provide information about everything after loading in the "Privacy Policy for Partner Pages".
- We report personal data breaches at this step where required by law and notify you.

6. Data subjects' rights

Data subjects may exercise their rights against both you and us. The essence of this arrangement is available to them in our "Privacy Policy for Partner Pages" and your text under item 8.

7. No browser storage

The Buybox sets no cookies and stores nothing in the visitor's browser. You therefore do not need a consent banner on your website because of the Buybox. You are responsible for anything else you use on your website.

8. Text for your privacy notice

"This page embeds the Buybox of Divinebeingmetatron Ltd. (Cyprus). When it loads, your browser sends Divinebeingmetatron Ltd. your IP address and technical information. We and Divinebeingmetatron Ltd. are joint controllers for this step. The legal basis is our legitimate interest in offering you the opportunity to buy here (Article 6(1)(f) GDPR). The Buybox sets no cookies. Only Divinebeingmetatron Ltd. processes what you enter in the Buybox. You can find more information in its Privacy Policy for Partner Pages."

9. Liability between the parties

Each party is responsible for its part: you for your website and correct embedding, and we for the Buybox and everything afterwards.

Annex 4: Joint controllership arrangement for advertising pixels

This arrangement applies between you and us under Article 26 of the General Data Protection Regulation. You accept it together with these terms. It applies for as long as you have entered a pixel under "My page" > "Ads".

1. What this covers

If you have entered a pixel and a visitor consents in the banner, we report the page view, checkout and purchase from our server to Meta and the purchase on the thank-you page to Google; from the free insight, we report to Meta what § 24(4) names. You and we are joint controllers for this collection and transmission, together with Meta or Google respectively.

2. What applies before and afterwards

We are the sole controller for the order, payment, Reading and portal. Meta, Google and you are responsible for what Meta and Google do with the data and for what you do with it in your advertising account.

3. Purpose and legal basis

The purpose is to measure and improve your advertising. The sole legal basis is the visitor's consent (Article 6(1)(a) GDPR, section 25(1) TDDDG).

4. Your tasks

- You enter only your own pixel and your own conversion and have accepted the terms of Meta or Google respectively for their tools, in Meta's case including its addendum on joint controllership.
- You use the reports only for your advertising for the Readings, not to identify visitors as individuals.
- You do not build audiences from sensitive characteristics, such as health or religion.
- If you receive a data subject request concerning this, you forward it to us without undue delay.

5. Our tasks

- We ask visitors beforehand through the banner and load nothing without their consent.
- We report only the steps in § 24(4) and never names, dates of birth or the content of Readings.
- We inform visitors in the "Privacy Policy for Partner Pages" and handle requests centrally.
- We report personal data breaches at this step where required by law and notify you.

6. Data subjects' rights

Data subjects may exercise their rights against both you and us. The essence of this arrangement is available to them in the "Privacy Policy for Partner Pages".

7. Liability between the parties

Each party is responsible for its part: you for your pixel, your advertising account and your advertising, and we for the banner, embedding and reporting.
